Re: 99P-1340/CP 1
Petition to Have "Eternity eau de parfum" Misbranded

To Whom It May Concern:

I have several family members who experience various health problems when exposed to perfumes. These health problems have often made it difficult for them to earn a living, due to the indoor air pollution caused by the widespread use of these toxic products at work. I am writing because I fully support the above petition. Please give it careful attention with regard to your regulations 21CFR Sec. 740.1, 21CFR Sec. 740.2, and 21CFR Sec. 740.10.

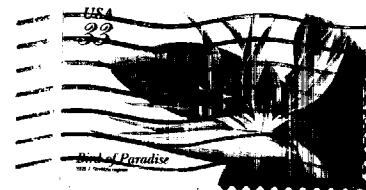

"Eternity" contains toxic ingredients and ingredients whose safety have not been substantiated. There is no warning label on its packaging. Without a warning label on this and similar products, people will continue to ignore anyone who has problems with them as either crazy or overly "politically correct." And many more people will lose their jobs and health. Thank you.

Sincerely,

Daved Marsh
